

Child Death/Homicide Investigation

Overview: This is an interactive course for investigators tasked with the responsibilities of investigating and documenting child death/homicide cases. The training will include the investigation and documentation of Sudden Infant Death Syndrome versus Suffocation, Abusive Head Trauma, Neglect/Failure to Thrive, Battered Child Syndrome, and other types of child deaths. This course is designed to help participants identify the complexity of child death investigations to include crime scene documentation and corroboration of statements, the importance of timelines, comparison of caretaker's statements to medical and forensic evidence, interview techniques, checklist for investigators, and the importance of court preparation. PowerPoint, lecture, and written exercise will be utilized for this course.

Who should attend? Law Enforcement

Continuing Education Credits: This training has been approved by the SC Criminal Justice Academy for 18 hours of continuing education credits for law enforcement officers.
